

## SCHEDULE 10 – PRODUCTS ASSOCIATED WITH AMERICAN RENEWABLE ENERGY PROGRAMS

### 1. Defined Terms

- (a) **American Renewable Energy Programs** means the programs specified in Table 10.1 below.
- (b) **Approved Registry** means one or more of the registries specified in Table 10.1 below.
- (c) **Asset Unit Transition Account** means the account in an Approved Registry that is exclusively dedicated to facilitating the transfers of Asset Units associated with the clearing and settlement arrangements for Products in the Market.
- (d) **Participant’s Market Registry Account** means the account in an Approved Registry that the Participant has exclusively dedicated for use in connection with the Market by exclusively authorizing Market Operator to transfer Asset Units to and from this account in accordance with these Market Rules.
- (e) **Participant’s Registry Account** means the account in the Approved Registry designated by the Participant for the transfer of Asset Units to and from the Participant’s Market Registry Account.
- (f) **Product** means a contract as further specified in a contract specification attached as an exhibit to this Schedule 10.
- (g) **Asset Unit** means an instrument for an American Renewable Energy Program specified in Table 10.1 below.

Table 10.1

American Renewable Energy Program	Approved Registry	Asset Units
North American Renewable Energy Certificate Standard further described at <a href="http://www.narecs.com">http://www.narecs.com</a>	North American Renewables Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10A
New England Power Pool Generation Information System (NEPOOL GIS) further described at <a href="http://www.nepoolgis.com">http://www.nepoolgis.com</a>	NEPOOL GIS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10B
PJM EIS Generation Attribute Tracking System (PJM-GATS) further described at <a href="https://www.pjm-eis.com">https://www.pjm-eis.com</a>	PJM-GATS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10C
Texas Renewable Energy Credit Trading Program further described at <a href="http://www.ercot.com/services/programs/rec">http://www.ercot.com/services/programs/rec</a>	ERCOT Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10D

American Renewable Energy Program	Approved Registry	Units
New York Generation Attribute Tracking System (NYGATS) further described at <a href="https://nygats.ny.gov">https://nygats.ny.gov</a>	NYGATS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10E
Michigan Renewable Energy Certification System (MIRECS) further described at <a href="http://www.mirecs.org">http://www.mirecs.org</a>	MIRECS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10F
Western Renewable Energy Generation Information System (WREGIS) further described at <a href="https://www.wecc.org/WREGIS">https://www.wecc.org/WREGIS</a>	WREGIS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10G
North Carolina Renewable Energy Tracking System (NC-RETS) further described at <a href="http://www.ncrets.org">http://www.ncrets.org</a>	NC-RETS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10H
Midwest Renewable Energy Tracking System (M-RETS) further described at <a href="https://mrets.org">https://mrets.org</a>	M-RETS Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10I
APX Transferable Instruments for Global Renewables (TIGRs) further described at <a href="http://tigrs.apx.com">http://tigrs.apx.com</a>	TIGRs Registry	Instruments are specified in the descriptions of the Product Specification(s) contained in Exhibit 10J
