PART 1:

Getting Set up on CBL

CBL Overview

- The CBL Platform is a transaction facilitator bringing buyers and sellers together.
- CBL facilitates the transfer of both product (i.e., emission units, RECs) and cash, which are settled via secure connections to both registry and bank accounts, respectively.
- To trade on CBL Market, Participants are required to have existing registry accounts connected to Xpansiv Connect (f/k/a EMA) and an external bank account from which funds can be deposited to and withdrawn from the Market.

Available Registries

Participants must have the relevant registry accounts they wish to connect to CBL Markets.

Registry Name	Connected Via Xpansiv Connect (Required to link in Xpansiv Connect to transact on CBL)
ACR	YES
Climate Action Reserve (CAR)	YES
EcoRegistry for CERCarbono	YES

What is Xpansiv Connect (f/k/a EMA)?

Xpansiv Connect is a platform owned by CBL.

Xpansiv Connect is a powerful tool that provides CBL Market Participants with a single account to view your entire environmental asset portfolio in one place.

Xpansiv Connect also enables real-time transfer initiation and settlement, including retirement within originating registries.

Access CBL Markets

The CBL portal can be accessed at: www.cblmarkets.net

As a new Participant, you will receive a username and temporary password from CBL's Client On-Boarding team.

You will be asked to select a new password upon your first login to ensure secure access.

PART 2:

User Guide

Navigating Workspaces

VOLUNTARY WORKSPACE:

All listed offsets for the voluntary carbon market will display here. These offsets can be purchased towards your voluntary initiatives.

STANDARD:

CBL has established connections to the major standards via their registries.

The Voluntary workspace offers Participants the ability to filter offers based on any of the standards listed by selecting or de-selecting the radio icons for each of the standards in the **STANDARD** menu.

The screenshot displays the 'Voluntary Order Book' interface. On the left, a sidebar contains navigation icons for Water, Orders and Fills, Holdings, SIP, and CORSIA. The main panel is titled 'ORDER ENTRY' and includes buttons for 'Place Bid', 'Place Offer', and 'Report Trade'. Below these is a 'DISPLAY CURRENCY' section with a 'Listed Currency' dropdown. A 'STANDARD' filter menu is open, showing a list of standards with radio buttons for selection. The 'PROJECT TYPE' filter is also visible at the bottom of the main panel. On the right, the 'Voluntary Order Book' table is shown, with columns for 'Actions', 'Standard', and 'Project Type'. Below this is an 'Orders' section with a table of orders, including columns for 'Actions', 'Reference', and 'Instrument'. A red arrow points to the 'STANDARD' filter menu, and a blue arrow points to the 'Orders' table.

1 to 10 of 96 records (filtered)

PROJECT TYPE:

Participants can filter offers on the screen by selecting the radio icons under “Project Type”.

The drop-down menu under each type also expands to allow filtering by specific methodology/technology type.

VINTAGE:

Participants can filter offers on the screen by selecting the slide bar under “Vintage”.

The Voluntary Market will show all vintage ranges available to trade.

COUNTRY/REGION:

Participants can filter offers on the screen by selecting the radio icons under “Country”, beginning at a regional level.

The drop-down menu can be expanded to show all countries within a region.

Participants can select all regions, specific regions or specific countries to view credits available via CBL.

The screenshot displays the 'Voluntary Order Book' interface. On the left, a sidebar contains navigation icons for Market Overview, Compliance, REDD+, and Voluntary. The main area features three filter panels: 'PROJECT TYPE (All)' with radio buttons for Agriculture (11), Alternative Energy (22), Emissions (25), Energy (15), Other (1), Forestry (9), Waste (9), Landfill (2), and Conservation; 'VINTAGE' with 'From' and 'To' input fields and a 'Clear' button; and 'COUNTRY (All)' with radio buttons for Africa (58), Antarctica (3), Asia (51), Europe (51), Islands (6), Latin America (49), and North America (5). To the right, the 'Voluntary Order Book' table is visible, showing columns for Actions, Standard, and Project Type. Below this, the 'Orders' section displays a table with columns for Actions, Reference, and Instrument.

YINGPENG HFC23 DECOMPOSITION PROJECT

The purpose of this proposed project is to collect all of the waste stream of HFC23 from HCFC22 production process, and decompose it almost completely by an incinerator to be installed in Yingpeng Chemical Co., Ltd. HFC23 will be decomposed to carbon dioxide (CO₂), hydrogen chloride (HCl), and hydrogen fluoride (HF) etc., with high temperature and low pH value, and be further processed by the cooling and de-acid process before being emitted to the atmosphere.

PROJECT SUMMARY

CBL HOLDINGS:

You can view your Market Inventory by navigating to **Holdings > Holdings**.

Filter your holdings in the upper right by toggling between the **All**, **Products**, or **Cash** buttons.

You can further filter by right clicking over **Instrument**, enter your preferred criteria, and click Apply.

Click **Export** in the upper right of any page to download your data in csv format.

Custom Workspaces

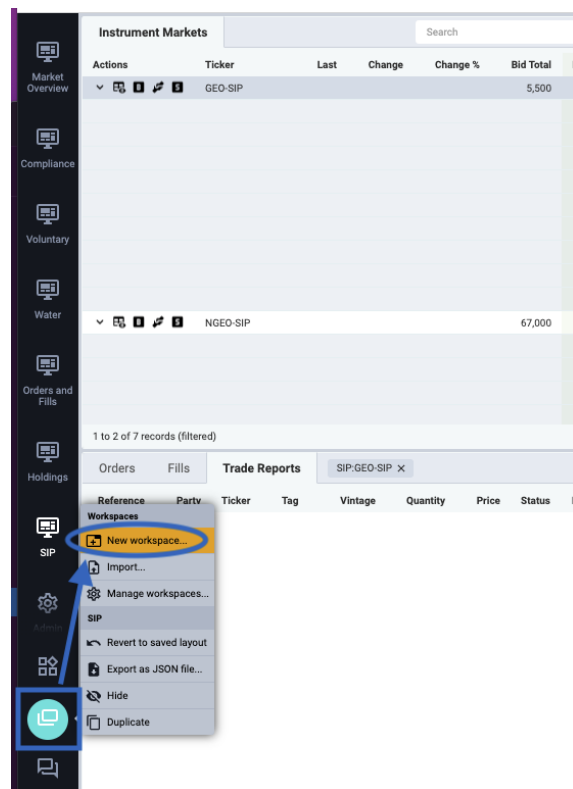

The Xpansiv CBL Platform enables users to create custom workspaces. Custom workspaces allow users to modify their pages by adding and arranging widgets in a custom location from any market screen in a workspace.

To create a custom workspace users can start with a pre-existing market template, a blank custom workspace, or make a copy of one of the primary workspaces and edit from there.

NOTE: Whenever changes are made to a workspace, such as adding widgets, changing filters, etc. those changes must be saved for the changes to persist past the login session. To learn how to save changes, see [Saving Workspaces](#). Any changes not saved, will be lost upon user logout.

Blank Custom Workspace

To create a brand new blank custom workspace, begin by clicking the **Workspace** icon on the left side toolbar, then click **New Workspace**.

Name your **Custom Workspace**, then click **Save**.

The workspace will now be available on the left hand navigation bar, underneath the existing workspaces. To change the order of the workspace, click and drag it to the desired location on the navigation bar.

Create a copy of an Existing Workspace

Alternatively, you can duplicate an existing **Workspace**. Right click the desired workspace, then select "Duplicate" and a copy of the desired **Workspace** will be available in your **Tool Bar** that can be customized to a user's preferences. You can change the **Workspace** name by double clicking the icon or right clicking and selecting "Edit Properties".

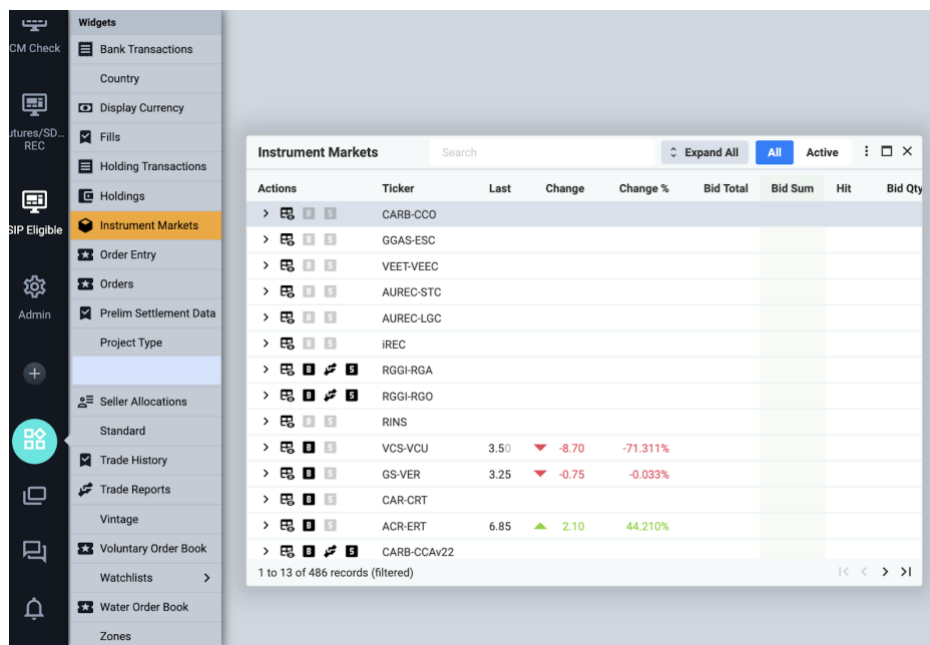

Add Widgets to a Workspace

Widgets can be tabbed into a window and/or placed adjacent to other widget windows so they can be viewed side by side.

To add a new widget to a space, navigate to your newly created **Workspace** on the left.

Click the **Widgets** icon and select from the available widgets to create your custom layout.

After selecting the **Widgets** you want on your **Custom Workspace**, you can arrange your view of them on the screen. **Note:** although you can drag and drop the widgets anywhere on the screen, they must be docked in order to save to your layout. The next steps will walk you through how to dock the widgets to the Workspace.

Docking Widgets to a Workspace:

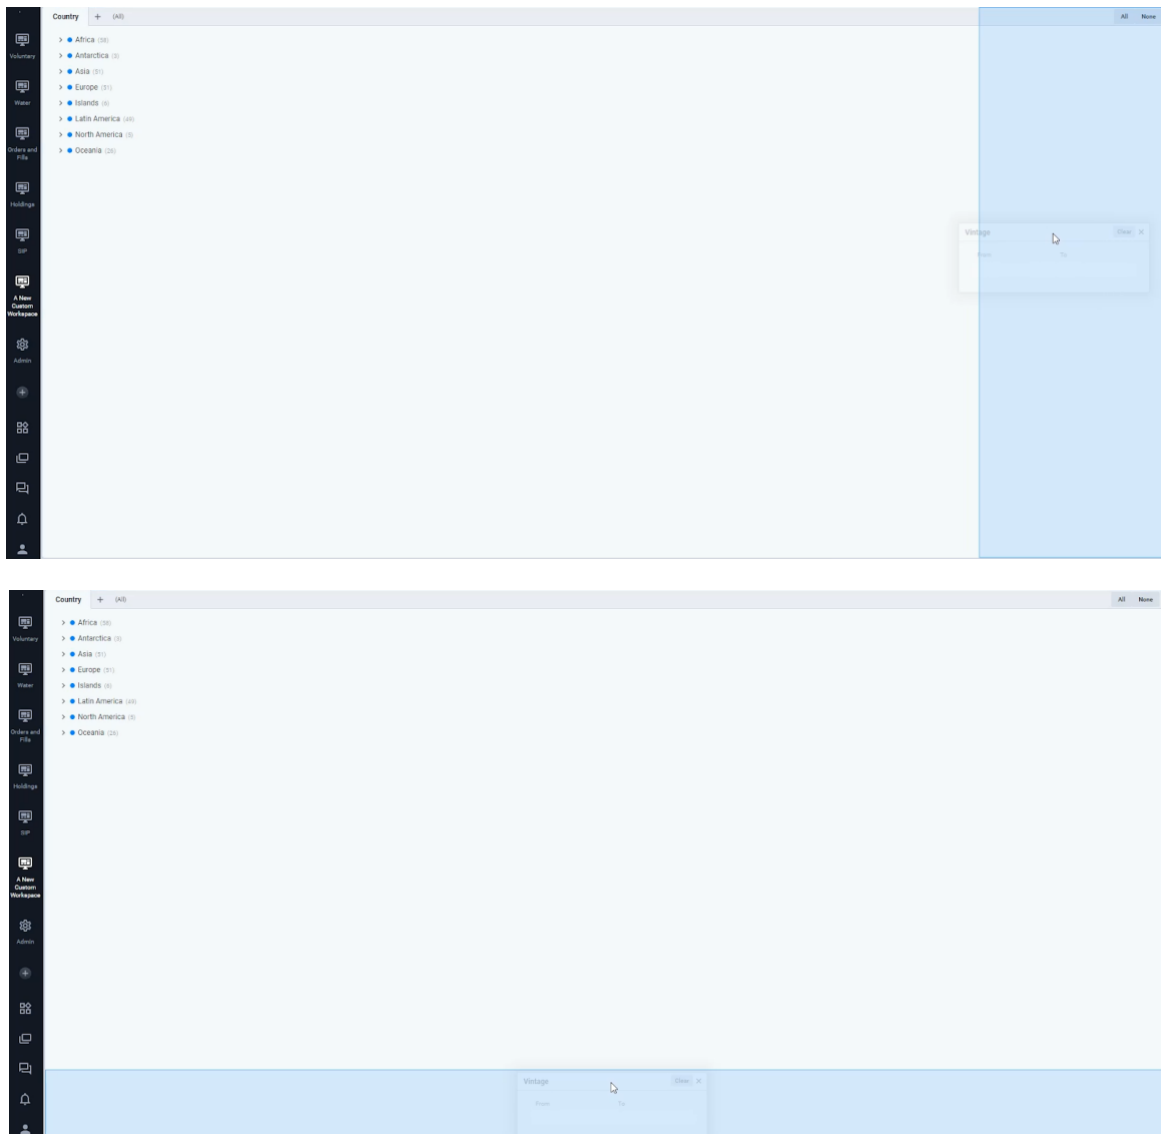

First, click the top bar of the **Widget** you want to move and hold it (just as if you were going to drag and drop something) and hold down the shift key on the keyboard.

Note: You can always drag and drop widgets around the space. However, they will not dock into the workspace until you hold shift while dragging and dropping your widget.

If you have only one **Widget** you want on your custom workspace, a blue tint will fill the screen.

If you have multiple widgets, once selected a blue tinted bar will appear in the area you hover over with your mouse to indicate a location to dock the new widget.

Drag and drop within the workspace depending on where you want to place your **Widget**.

Note: Depending on your layout and where your mouse is located on the screen, different areas of the workspace will highlight blue, indicating a valid location to drop the widget.

When ready, release the widget by letting go of the mouse button and it will dock in place within your new workspace. After it's docked into the space, release the shift key.

Remember to **Save** your work, by right clicking the Workspace Name on the left hand navigation bar and selecting Save.

Tabbing Widgets:

It's possible to tab multiple widgets in the same widget window. To do so, drag the widget to the middle of an existing widget window, note that the existing widget window will turn blue, indicating that you can drop it into place.

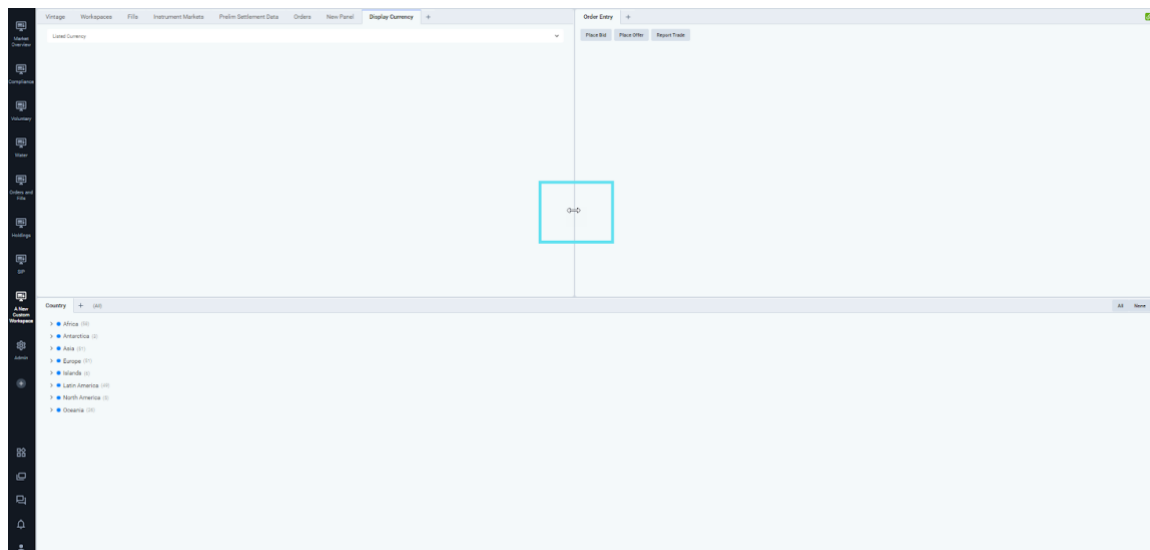

When ready, release the widget by letting go of the mouse button and it will dock in place within your new workspace.

Alternatively, you can also click the plus sign on any widget window to select a widget to add to that window.

Once the widgets have been placed in their desired location. Remember to **Save** the configuration by right clicking on the workspace name on the left hand side of the screen and selecting **Save**.

Adjusting Widget Window Sizes:

Docked Widget Windows Height and Width can be adjusted to fit a space. To do so, hover your mouse between two widget windows until a two sided arrow icon replaces your normal mouse icon.

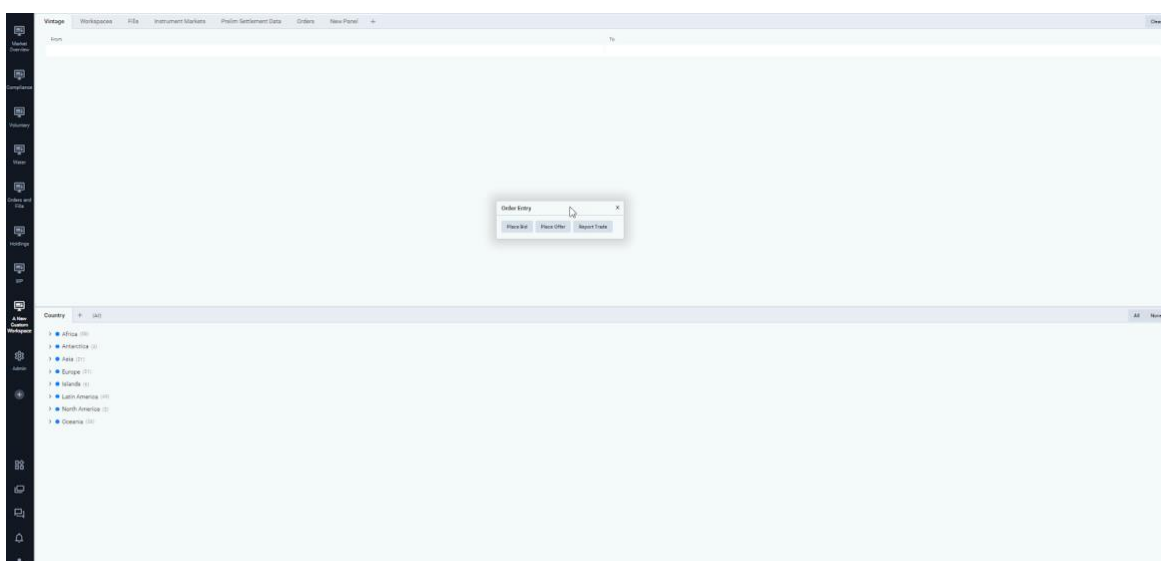

Then drag and release when the desired widget window size has been accomplished.

Remember to **Save** the configuration by right clicking on the workspace name on the left hand side of the screen and selecting **Save**.

Removing Widgets from a Widget Window or Workspace:

To remove a widget window, click on the tab or widget window you'd like to remove, drag the widget tab or window towards the center of the screen. The widget should now be undocked and an 'X' icon should be visible on the top right hand side of the widget.

Click on the 'X' icon to remove the widget.

Remember to **Save** the configuration by right clicking on the workspace name on the left hand side of the screen and selecting **Save**.

Saving Workspaces

After creating a custom **Workspace** or modifying an existing one, it is important to **save the changes** you have made so you do not lose them upon log out.

To save a **Workspace**, right click its icon and select "**Save**". Alternatively, you can revert changes to a **Workspace** by selecting "Revert to saved layout"; this will restore the previously saved view.

Exporting a workspace: Exporting JSON Files

You can export your custom **Workspace** as a **JSON** file. A **JSON** file is a saved workspace layout from the Platform; these files can be shared with colleagues and/or stored for later use.

When right clicking the desired **Workspace**, select "Export as a JSON file" and a file will download to your computer.

Importing a workspace: Importing JSON Files

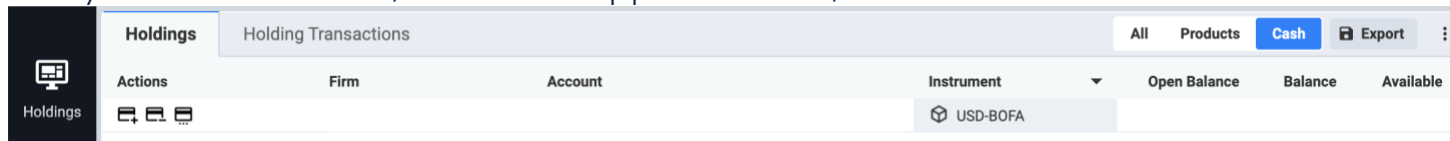

A user can import a shared **JSON** file by clicking the **Workspace** icon on your toolbar and select "Import". Once the **JSON** file is selected for import, the **Workspace** will appear in the left toolbar.

Entering Orders on CBL

INITIATING A BUY

A buyer must be in-funds, inclusive of applicable fees, to bid on CBL Platform.

The screenshot shows the 'Holdings' section of the CBL Platform. The 'Holding Transactions' tab is active. The 'Instrument' dropdown is set to 'USD-BOFA'. The table has columns for 'Actions', 'Firm', 'Account', 'Instrument', 'Open Balance', 'Balance', and 'Available'.

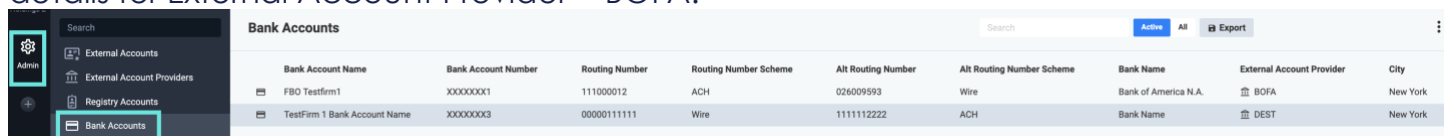

Actions	Firm	Account	Instrument	Open Balance	Balance	Available
  			USD-BOFA			

Markets which source funds from USD-BOFA

USD-BOFA is the Participant's dedicated CBL Markets FBO account at Bank of America N.A. (BoFA)

- Verra Verified Carbon Standard (VCS)
- Climate Action Reserve (CAR)
- ACR
- Gold Standard (GS)
- CERCarbono (COU)
- International REC Standard (IREC)
- Puro Standard CO₂ Removal Certificate (CORC)
- Standard Instruments Program (SIP)
- US Renewable Energy Certificates (US RECs)
- Compliance Instrument Tracking System Service (CITSS)
- Regional Greenhouse Gas Initiative (RGGI)
- Clean Air Markets Division (CAMD)
- Low Carbon Fuel Standard (LCFS)

A CBL User with cash manager authority can locate the Participant BoFA FBO **funding instructions** on CBL Platform. Once logged in to CBL, go to Admin > Bank Accounts. See details for External Account Provider > BOFA.

The screenshot shows the 'Bank Accounts' page in the CBL Platform. The 'Admin' menu is open, and 'Bank Accounts' is selected. The table lists bank accounts with columns for Bank Account Name, Bank Account Number, Routing Number, Routing Number Scheme, Alt Routing Number, Alt Routing Number Scheme, Bank Name, External Account Provider, and City.

Bank Account Name	Bank Account Number	Routing Number	Routing Number Scheme	Alt Routing Number	Alt Routing Number Scheme	Bank Name	External Account Provider	City
FBO Testfirm1	XXXXXXX1	111000012	ACH	026009593	Wire	Bank of America N.A.	BOFA	New York
TestFirm 1 Bank Account Name	XXXXXXX3	0000011111	Wire	1111112222	ACH	Bank Name	DEST	New York

BoFA Address: 222 Broadway, New York, NY 10038

ACH ABA Routing Number: 111000012

WIRE ABA Routing Number: 026009593

SWIFT: BOFAUS3N

INITIATING A SELL

VCS, CAR, ACR, COU: after depositing inventory to CBL Market, seller initiates and manages offers directly on CBL Platform; for deposit instructions, refer to [Depositing Voluntary Carbon \(VCM\) to CBL](#).

Gold Standard: seller will initiate listing by first transferring the VERs to be offered to the GS Participant CBL Trading Account in the registry, then emailing the following format Gold Standard Administrator at gsf.cbl@goldstandard.org. All fields are required to ensure timely listing of your order to CBL. Orders may be cancelled or amended by replying to the same email address with additional order instructions. Buyer is the initiator on the CBL Platform and lifts offers from the Voluntary Order Book.

Project Name:	
Project Type:	
Project ID:	
Project Vintage:	
Quantity of Credits:	
Whole or Partial Listing:	
Offer Price:	
Offer Currency (USD):	
GSF Account #:	
Company Name:	
CBL Login Username: (must be an active Trader user on CBL)	

All SIP and Compliance: after depositing inventory to CBL Market, seller initiates and manages offers directly on CBL Platform; for deposit instructions, refer to [Depositing SIP](#) and [Encumbering RECs](#).

SIP and Compliance – Buy or Sell

ORDER ENTRY:

- In the Order Book, under Actions, select the “B” or “S” button. An **Order Ticket** will open.
- You can enter multiple orders by clicking Multi in upper right corner of the **Order Ticket**.
- Enter your order preferences within the **Order Ticket**.
 - Order Type
 - Quantity
 - All or None
 - Limit Price
 - Expiry
 - Account: your Participant Account
- Alternatively, you can **Hit** or **Lift**.

The screenshot displays the 'Instrument Markets' interface. On the left, a sidebar contains navigation icons for Compliance, Voluntary, SIP, Orders and Fills, Holdings, Water, and REDD+. The main area shows a table of instrument markets with columns: Actions, Market, Instrument, Bid Sum, Hit, Bid Qty, Bid, Ask, Ask Qty, Lift, Ask Sum, Last, and Change. The 'Actions' column for each instrument includes icons for Hit (H), Lift (L), Buy (B), and Sell (S). The 'Order Ticket' modal is open on the right, showing fields for Ticker (Compliance:PJM-PASRV23), Side (Buy/Sell), Type (Limit/Market/FAK/Iceberg), Total Quantity, All or None (Yes/No), Limit Price, Expiry (GFS/DAY/GTC/GTD/GTT), and Account. The modal also displays estimated values, fees, and a 'Place Buy Order' button.

Voluntary – Buy or Sell

VCS, CAR, ACR, COU, IREC only; see [Initiating a Sell](#) for alternate information on Gold Standard

ORDER ENTRY:

- In the Voluntary Order Book, under Actions, select the “B” or “S” button. An **Order Ticket** will open.
- You can enter multiple orders by clicking Multi in upper right corner of the **Order Ticket**.
- Enter your order preferences within the **Order Ticket**.
 - Side
 - Project ID, Project Type, and Country
 - Vintage
 - Quantity
 - All or None
 - Limit Price
 - Expiry
 - Account: your Participant Account
- Alternatively, you can **Hit** or **Lift**.

The screenshot displays the 'Voluntary Order Book' interface. On the left, a sidebar contains navigation links: Market Overview, Compliance, Voluntary (highlighted), SIP 2, Orders and Fills 2, Holdings 2, Admin, and a plus icon. The main area is divided into two panels. The top panel, 'Voluntary Order Book', shows a table with columns: Actions, Standard, Project Type, Country, and Sell. The 'Actions' column has buttons for 'B' (Buy) and 'S' (Sell). The 'Standard' column lists 'VCS-VCU' and 'AFOLU'. The 'Project Type' column lists 'AFOLU'. The 'Country' column lists 'Cambodia', 'China', 'Colombia', and 'Myanmar'. The 'Sell' column has a button 'Enter Order' circled in blue. The bottom panel, 'Orders', shows a table with columns: Actions, Reference, Ticker, and Project ID. The 'Reference' column lists '1NDFQ', '1NDFP', '1NDEG', '1NDEF', '1NDEE', '1NDEC', '1NDEB', '1NDEA', '1NDE9', '1NDE7', '1NDE6', '1NDE5', '1NDE4', and '1NDE3'. The 'Ticker' column lists 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:IREC-IREC', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', 'Voluntary:VCS-VCU', and 'Voluntary:VCS-VCU'. The 'Project ID' column lists '2478', '1344', 'DG_ZSOL', '1650', '1650', '1953', '1218', '1380', '1380', '1860', '1753', '1867', '1762', '1582', and '2038'. The 'Enter Order' dialog box is open on the right, showing fields for Standard, Side, Project ID, Project Type, Country, Vintage From, To Vintage, Total Quantity, All or None, Limit Price, Currency, Expiry, Account, Settlement Currency, and Info. The 'Enter Order' button is circled in blue.

Amending and Cancelling Orders

From any screen under Orders&Fills > Orders (Compliance, Voluntary*, SIP, Orders&Fills):

*Gold Standard (GS-VER) offers cannot be cancelled or amended on CBL Platform. User must contact gsf.cbl@goldstandard.org to request offer cancellation or amendment.

- To **cancel** an open order:
 - Navigate to the 'No' icon under Actions on the far left. If hovering over it, 'Cancel' will pop up.

Orders															Fills	Trade Reports	+											Active	Held	Filled	All	All	Buy	Sell

Hitting a Bid

- Within the Order Book on any screen, click the arrow downward to view the depth of book, and then the "H" button to hit (sell) a bid.
- Selecting "H" means you agree to the bid price listed.
- **Order Ticket** will auto populate with the bid parameters.
- You can lift **partial** Quantity only if you see the up/down arrows next to the Bid Qty.
- If there is no "H" button present, it is an indicative bid and cannot be hit.

* EINs issued before March 2010 may not have assigned certifications or eligibilities. Certifications and eligibilities are derived from publicly available data and are subject to change from time to time, which changes may not be reflected in an EIN. Before taking action in reliance on the certifications and eligibilities set forth in an EIN, you should confirm their status.

Initiating a Transfer

- Log into Xpansiv Connect and click on **Portfolio > Overview**

- From the **Spot Inventory** tab, on the right click **New Batch**.

Xpansiv Portfolio Access: Positions

- In the pop-up window select the following: **EMA Batch Sell**
- EMA batch type** = New EMA Batch Sell
- Program** = Select the program or registry you are transferring
- Market** = Select the Market you are transferring
- Click Continue

Initiate EMA Batch

Define initial EMA Batch parameters

EMA Batch Type: **New EMA Batch Sell**

If current filter settings include Program and/or Market, they are reflected here:

Program: **Verified Carbon Standard**

Market: **VCS**

Aggregate by Instrument: ☐

For New EMA Batch Buy, please go to **Transaction Details** under the Transact menu, and click the New Batch button.

Continue **Cancel**

Initiating a Transfer (cont.)

- Select which position(s) you want to transfer by clicking the checkbox(s) on the left.

The screenshot shows the 'Spot Positions' table with the following data:

Instrument	Project Name	Reg Assgn ID	Vintage	Program	Qty	Est Mkt Price	Est Mkt Value	Est Gain/Loss	Ccy	Actions

- User will see **Deposit successful** and can then click to return to Portfolio inventory or go to the Voluntary Deposits screen.

Blocking Credits in EcoRegistry for Trading CERCarbono

To deposit CERCarbono Standard Certified Offset Units (COUs) on CBL, COUs must first be blocked within EcoRegistry to reflect holdings in Xpansiv Connect.

- Log in to EcoRegistry and click on Trading > CBL Markets.

- From this screen, select which units you want to block in the registry so you can then deposit to CBL for listing
 - Project** – select from the drop down
 - Serial Number** – select from the drop-dpwn
 - Carbon Offsets to Transfer** – numbe of tonnes (cannot exceed your Available Credits)

When ready, click **Transfer**.

- You will be prompted to enter a confirmation code sent via SMS or email. Once entered, click **Accept**.

Transfer confirmation

A Code has been generated, which was sent by SMS to your cellphone number or to the e-mail registered on the platform. Please check your inbox or spam and enter the Code to confirm the transfer HERE, [resend code](#) ☐ SMS ☒ E-mail.

Enter the verification code

1. Code generated, please check your e-mail inbox, spam or SMS

- This snapshot of the CBL Platform 'Holdings' Tab shows the VCS Inventory deposited on the CBL Platform via the Voluntary Batch deposit process.

Global Search: a global **Search** function is available to find values across all columns. To search enter a value into the Search box at the top right of the screen. Values that match the search criteria will be returned. Example: search 2020 and the results displayed. To clear the search tap the 'x' in the search box.

Search by column is also available. To search for a value in a specific column enter the value in the search area at the top of each column.

Managing VCM Deposits (cont.)

Manage the Priority of VCM Deposits

As trades are made on the CBL Platform the VCM Deposit quantities reported as traded will be drawn for Settlement in Xpansiv Connect. Using the Priority associated with a given VCM Deposit user can manage how the VCM Deposits will be processed for Settlement. Settlements will start with VCM Deposits with a Priority of 1 and continue in order up to Priority 5 or until all available deposits are exhausted.

To change the Priority for an existing VCM Deposit select the relevant check box(es) on the far left for the deposits you want to update, then click "Change Priority" towards the upper right.

Managing VCM Deposits (cont.)

Withdraw VCM Deposits from CBL Platform

NOTE: It is important to utilize Xpansiv Connect for Withdrawal of VCM deposits and **only** Xpansiv Connect to Withdraw deposited quantities from the CBL Platform.

To Withdraw all, or a portion of, a VCM Deposit from the CBL Platform:

- Go to Transact > Voluntary Deposit option on the top menu
- Select your withdrawals by checking the relevant boxes on the far left
- Click Withdraw towards the upper right

Unblocking Credits in Xpansiv Connect for return to EcoRegistry

To return blocked credits to EcoRegistry inventory, COUs must first be withdrawn from Voluntary deposit on CBL then unblocked in Xpansiv Connect.

- To unblock credits for return to EcoRegistry inventory, log in to Xpansiv Connect and click on **Portfolio > Overview**.

- Click on the cog wheel icon located to the right on the same line of the credits you want to unblock. You will see the options Sell, Export, and Retire. To unblock, click **Export**.

Depositing SIP to CBL

- Log into Xpansiv Connect and click on **Portfolio > Overview**.
- From the **Spot Inventory** tab, on the right click **New Batch**.

- In the pop-up window select the following:
 - **EMA Batch Type** = New EMA Batch SIP
 - **Market** = Select the appropriate market (NGEO for this example)
 - **Priority** = The Priority option shown determines how the deposited inventory will be settled when traded on the CBL Platform.
 - Valid selections for the Priority range from 1 through 5.
 - When Xpansiv Connect receives traded quantities from CBL the Inventory deposited will be drawn down in Priority order starting with the Deposits with Priority 1 and will continue through, in order, to Deposits Priority 2-5.
- Click Continue

Initiate EMA Batch

Define initial EMA Batch parameters

EMA Batch Type: New EMA Batch SIP

Market: NCEO

Priority: 1 (First)

Settlement will be automatic, based on priority. Lower numbers will settle before larger numbers. If deposits have the same ranking, EMA will settle the earlier vintage first. Blank priorities will not be settled unless there are no prioritized deposits, settling earlier vintages first.

For New EMA Batch Buy, please go to [Transaction Details](#) under the Transact menu, and click the New Batch button.

Continue Cancel

Execute EMA Batch Exit Batch Mode

† **Transaction Date:** The actual date on which the purchase or sale portion of an existing Xpansiv Transact OTC transaction for an environmental instrument was executed. In EMA, the Transaction Date cannot represent a date in the future; it can be the current date or any EMA business date prior to today.

† **Settlement Date:** The date on which the physical settlement of an environmental instrument is going to be initiated, in the registry account of an Xpansiv EMA account holder, to satisfy the terms of an existing Xpansiv Transact OTC transaction. In EMA, the settlement date must be a date representing today or a future EMA business date. EMA will initiate physical settlement in the registry for Xpansiv Transact OTC Transactions that are in **Approved** status before 8:00 PM ET. Transactions approved after this time are physically settled on the settlement day on a best-efforts basis.

Managing SIP Deposits

- Log into Xpansiv Connect and click on **Transact > SIP**. This is where you can see what projects/vintages are deposited on CBL to trade SIP.
- If needed, you can amend the priority of certain SIP products deposit on CBL by clicking the gear wheel icon (⚙️). The ability to **Set Priority** will appear.

The details of the SIP Deposit will be displayed.

Managing SIP Deposits (cont.)

Manage the Priority of SIP Deposits

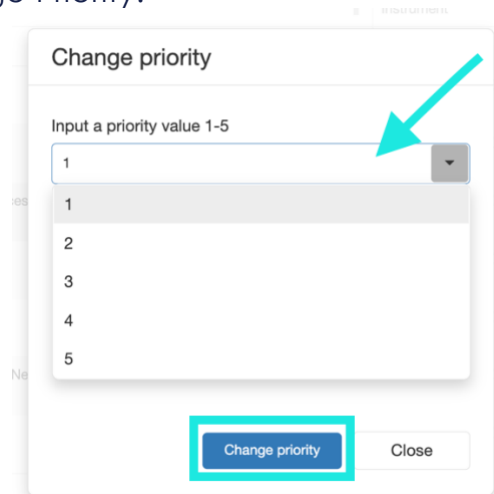

As trades are made on the CBL Platform the SIP Deposit quantities reported as traded will be drawn for Settlement in Xpansiv Connect. Using the Priority associated with a given SIP Deposit you can manage how the SIP Deposits will be processed for Settlement. Settlements will start with SIP Deposits with a Priority of 1 and continue in order up to Priority 5 or until all available deposits are exhausted.

To change the Priority for an existing SIP Deposit, select the relevant check box(es) on the far left for the deposits you want to update, then click "Change Priority" towards the upper right.

	Market	Status	Program	Project	Instrument	Vintage	Qty	Qty Avail.	Qty Settled	Priority	Actions
<input type="checkbox"/>	CGEO	Deposited	VCS	1519 - Satara Wind Power Project in Maharashtra, India.	VCU-20201101-20201231-EE-IND	2020	5985	5985	0		
<input type="checkbox"/>	CGEO	Deposited	VCS	1660 - Wind bundle project in Maharashtra by Sispara	VCU-20201101-20201231-EE-IND	2020	5675	5675	0		
<input checked="" type="checkbox"/>	CGEO	Deposited	VCS	762 - Grid connected electricity generation from renewable sources: Uzuncayir 82.0 MW Hydroelectric Power Plant Project, Turkey	VCU-20190101-20191201-EE-TUR	2019	897	897	0	3	

The Change Deposit Priority pop up will be displayed. Select the appropriate value for the Priority and click Change Priority.

Managing SIP Deposits (cont.)

SIP Deposits Settlement in Priority Order

SIP Deposits will be drawn for Settlement in Priority order from 1 through 5. When trades are executed on CBL Platform the quantity traded will automatically be drawn from the SIP deposits. In this example the SIP Deposits processed in the previous steps will be used for trading on the CBL Platform.

897 CGEO are available under Priority 1 – this means that any CGEO sale on CBL will first deliver inventory from the 897 VCS 762 (priority 1) lot before attempting to deliver from the 333 VCS 1758 (priority 3) lot.

Depositing US RECs to CBL

- Log into Xpansiv Connect and click on **Portfolio > Overview**.
- From the **Spot Inventory** tab, on the right click **New Deposit Batch**.

- In the pop-up window select the following:
- **EMA Batch Type** = CBL Compliance REC Deposit
- **Program** = select registry for deposit (NEPOOL, NAR, NYGATS, MIRECS, PJM or ERCOT)
- **Please Note:** For PJM and ERCOT, user must transfer the RECs from primary account to Participant's CBL Settlement Registry Account before this step.
- **Market** = Specific Market of RECs – user must select specific eligibility desired for deposit
- Click Continue

Initiate EMA Deposit Batch

Define initial EMA Deposit Batch parameters

Registries and Instruments Not Integrated to Xpansiv Connect

Puro Standard CO₂ Removal Certificates (CORCs)

Puro Registry

Depositing CORC units for trading on CBL Markets

For trading CORCs, please transfer units within Puro Registry to Participant's designated CBL Market Registry Account; this is a sub account of CBL's Platform Operator account with Puro Registry. Contact Client Service at clientservice@cblmarkets.com if you need your account information.

Upon successful transfer of CORCs to Participant's CBL Market Registry Account, CBL Market Operations will be notified of incoming transfer. Market Operations will review the incoming units and facilitate deposit to Participant's holdings on the Platform making them available to list.

Buying Participant must have the USD-BOFA account funded in advance of entering bids or lifting offers. See [Entering Orders on CBL](#) for **funding instructions**.

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Markets to Participant's primary Puro Registry Account

Participants may submit requests to withdraw CORC holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to the Puro Registry account provided in the Participant application. User submitting the withdrawal request must have Product Authority on record with CBL.

Sustainable Development Global Emissions Offset (SDGEO)

Gold Standard and Verra can be delivered for SDGEO; both registries are required to transact GEO on CBL.

Depositing SDGEO eligible units for trading on CBL Markets

Please transfer SDGEO eligible Units to the Participant's designated SDGEO Registry Account in either Gold Standard or Verra. Contact Client Service at clientservice@cblmarkets.com if you need your SDGEO account information.

Upon successful transfer of units to your SDGEO Registry Account, CBL Market Operations will be notified of your incoming transfer. Market Operations will review the incoming units and facilitate deposit to your holdings on the Platform making them available for you to list.

Buying Participant must have their USD-BOFA account funded in advance of entering bids or lifting offers. See [Entering Orders on CBL](#) for **funding instructions**.

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Markets to your primary Verra/Gold Standard account

Participants may submit requests to withdraw SDGEO holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to your primary Verra/Gold Standard account. User submitting the withdrawal request must have Product Authority on record with CBL.

California Cap and Trade

Compliance Instrument Tracking System Services (CITSS)

Minneapolis Grain Exchange (MGEX) has appointed CBL Markets as authorized account representative to manage day-to-day operation of their CITSS Registry Account to house Participant allowances for the purposes of transacting on CBL Market.

Depositing California carbon allowances and/or offset for trading on CBL Markets

For trading in the California Cap-and-Trade Program, please transfer Units within CITSS to:

- **Account Name:** Minneapolis Grain Exchange, Inc.
- **Account Number:** CA1943-2290
- **Entity Reference Code:** 71496513

Please note that **due to ARB Regulations**, all Units held in the MGEX ECHA will be returned to Participants after the close of trading at the end of each week. Upon successful transfer of CITSS units to MGEX ECHA, CBL Market Operations will be notified of your incoming transfer. Market Operations will review the incoming units and facilitate deposit to your holdings on the Platform making them available for you to list.

Buying Participant must have their USD-BOFA account funded in advance of entering bids or lifting offers. See [Entering Orders on CBL](#) for **funding instructions**.

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Market to your CITSS General Account

Participants may submit requests to withdraw CCA/CCO holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to your CITSS account provided in your Participant application. User submitting the withdrawal request must have Product Authority on record with CBL.

Regional Greenhouse Gas Initiative (RGGI)

Depositing RGGI allowances for trading on CBL Markets

For trading in the Regional Greenhouse Gas Initiative Program, please transfer Units within RGGI COATS to Participant's designated CBL Market Registry Account. Contact Client Service at clientservice@cblmarkets.com if you need your account information.

Upon successful transfer of RGGI units to your CBL Market Registry Account, CBL Market Operations will be notified of your incoming transfer. Market Operations will review the incoming units and facilitate deposit to your holdings on the Platform making them available for you to list.

Buying Participant must have their USD-BOFA account funded in advance of entering bids or lifting offers. See [Entering Orders on CBL](#) for **funding instructions**.

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Markets to your RGGI general Account

Participants may submit requests to withdraw RGGI holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to your RGGI account provided in your Participant application. User submitting the withdrawal request must have Product Authority on record with CBL.

Clean Air Markets Division Business System (CAMDBS)

Depositing CAMD allowances for trading on CBL Markets

For trading in EPA Clean Air Markets Division, please transfer Units within CAMDBS to Participant's designated CBL Market Registry Account. Contact Client Service at clientservice@cblmarkets.com if you need your account information.

Upon successful transfer of CAMD units to your CBL Market Registry Account, CBL Market Operations will be notified of your incoming transfer. Market Operations will review the incoming units and facilitate deposit to your holdings on the Platform making them available for you to list.

Buying Participant must have their USD-BOFA account funded in advance of entering bids or lifting offers. See [Entering Orders on CBL](#) for **funding instructions**.

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Markets to your CAMD Account

Participants may submit requests to withdraw CAMD holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to your CAMD account provided in your Participant application. User submitting the withdrawal request must have Product Authority on record with CBL.

Low Carbon Fuel Standard (LCFS)

LCFS Reporting Tool – Credit Bank and Transfer System (LRT-CBTS)

Minneapolis Grain Exchange (MGEX) has appointed CBL Markets as authorized account representative to manage day-to-day operation of their LRT-CBTS Registry Account to house Participant units for the purposes of transacting on CBL Market.

Depositing LCFS units for trading on CBL Markets

Please transfer Units within LRT-CBTS to:

- **Select Transfer Type 3:** Agreements for the sale of LCFS credits through any contract arranged through a clearing service provider.
- **Account Name:** Minneapolis Grain Exchange, Inc.
- **Click** the **Exchange Transfer** box and leave price blank

Please note that **due to ARB Regulations**, all Units held in the MGEX Holding Account will be returned to Participants after the close of trading at the end of each week.

Upon successful transfer of LCFS units to MGEX Holding Account, CBL Market Operations will be notified of your incoming transfer. Market Operations will review the incoming units and facilitate deposit to your holdings on the Platform making them available for you to list.

Buying Participant must have their USD-BOFA account funded in advance of entering bids or lifting offers. See [Entering Orders on CBL](#) for **funding instructions**.

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Market to your LRT-CBTS Account

Participants may submit requests to withdraw LCFS holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to your LRT-CBTS account provided in your Participant application. User submitting the withdrawal request must have Product Authority on record with CBL.

Australian Carbon Credit Units (ACCU)

Australian National Registry of Emissions Units (ANREU)

Depositing ACCUs for trading on CBL Markets

For trading Australian Carbon Credit Units, please transfer Units within ANREU to Participant's designated CBL Market Holdings Account. Contact Client Service at clientservice@cblmarkets.com if you need your account information.

Upon successful transfer of ACCUs to your CBL Market Holdings Account, CBL Market Operations will be notified of your incoming transfer. Market Operations will review the incoming units and facilitate deposit to your holdings on the Platform making them available for you to list.

Buying Participant must have their AUD-REC account funded in advance of entering bids or lifting offers. Please **transfer AUD** to the following account in **Westpac Banking Corporation**:

Account Name: CBL Markets (Australia) Pty Ltd

Account Number: contact CBL Operations at operations@cblmarkets.com

BSB (Routing): 034215

SWIFT: WPACAU2S

Bank Name: Westpac

Bank Address: Level 31, 275 Kent Street, Sydney NSW, 2000 Australia

Trading: bid and offer orders are initiated and managed on the CBL Market Platform.

Withdrawing units from CBL Markets to your ANREU Account

Participants may submit requests to withdraw ACCU holdings from CBL Market by emailing CBL Operations at operations@cblmarkets.com. CBL Market Operations will facilitate the transfer to your ANREU account provided in your Participant application. User submitting the withdrawal request must have Product Authority on record with CBL.

PART 3:

Reported Transactions

Reporting a Trade

Both counterparties must be active CBL Participants with the relevant product(s) set up to transact on CBL (i.e., active registry account linked, instrument available to Participant to transact, trader user identified, buyer in-funds, seller in-product, etc.)

Appropriate party submits **Order Ticket** to **CBL Market Operations** (operations@cblmarkets.com) using the following template.

All information is required to facilitate reported transactions. If a field is not applicable, please fill in 'n/a'; for example, LCFS does not require Project ID or Vintage.

Seller Firm/Trader's CBL Username*:

Buyer Firm/Trader's CBL Username*:

Broker (if applicable):

Market (Voluntary, SIP, Compliance):

Instrument (VCS, ERT, VERR, GEO, NGE0, NJSR, MASR2, etc.):

Project ID (if applicable):

Vintage:

Quantity:

List Price:

*The individual accepting the trade on CBL must have an active CBL user with Trader authority enabled.

Questions about reported trades?

Commercial – exchange@xpansiv.com

Market Operations – operations@cblmarkets.com

Phone: +1-833-972-6677

Reporting a Trade: Voluntary

VCS, CAR, ACR, COU, IREC: **Seller** deposits specified units to CBL Market with priority 1 (ONE). All other VCM deposits in the same project and vintage, if any, must be priority 2 or higher to ensure delivery of the negotiated project, vintage, and quantity. See [Depositing Voluntary Carbon \(VCM\) to CBL](#) for details on depositing and withdrawing VCM units.

VERR: **Seller** transfers product to **CBL Markets Settlement**, 1081837 in Gold Standard and **CBL Market Operations** will accept the incoming units and deposit to the respective seller's Participant account on the Market.

Buyer must be in-funds, inclusive of CBL fees, in the Participant Market Bank Account (USD-BOFA) to accept their side of the order. See [Entering Orders on CBL](#) for **funding instructions**.

CBL Market Operations will book the Reported Transaction to CBL and notify the respective counterparties when ready to accept.

Log in to CBL Markets and select **Voluntary Market** workspace, then select **Trade Reports** tab at bottom of the screen

Right click the **Status** a pop up will appear where you can either **Confirm** or **Reject** the trade.

Reporting a Trade: SIP

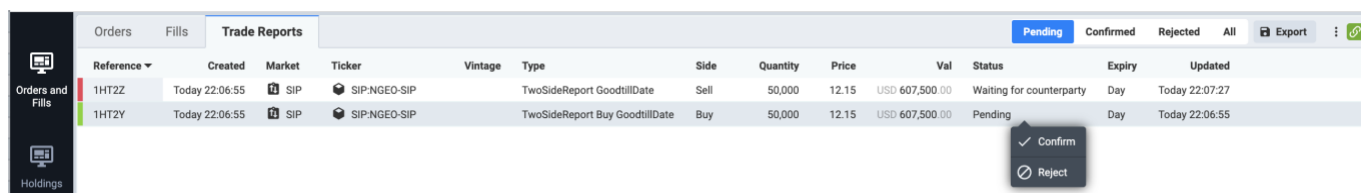

Seller deposits SIP eligible product to CBL Market with priority 1 (ONE). All other SIP deposits in the same instrument must be priority 2 or higher to ensure delivery of the negotiated project, vintage, and quantity. See [Depositing SIP to CBL](#) for details on depositing and withdrawing SIP units.

Buyer must be in-funds, inclusive of CBL fees, in the Participant Market Bank Account (USD-BOFA) to accept their side of the order. See [Entering Orders on CBL](#) for **funding instructions**.

CBL Market Operations will book the Reported Transaction to CBL and notify the respective counterparties when ready to accept.

Log in to CBL Markets and select **SIP** workspace, then select **Trade Reports** tab at bottom of the screen.

Right click the **Status** a pop up will appear where you can either **Confirm** or **Reject** the trade.

An additional email address can be added to receive trade report notifications. A Participant can provide CBL with a group distribution email address to add. This way you, the Participant, controls who receives these reports. These requests can be submitted to CBL **Market Operations** (operations@cblmarkets.com) or **Client Service** (clientservice@cblmarkets.com).

Purchased Holdings

Voluntary

- VCS, CAR, ACR, COU, IREC buyers retain deposits on CBL
 - It is recommended buyer prioritize these holdings in Xpansiv Connect in the event user plans to list them; they are otherwise last in the delivery priority order.
 - Participant can withdraw VCM holdings from CBL within Xpansiv Connect by referring to Voluntary Deposit inventory and initiating a withdrawal of product; once selected, the product is returned to the Xpansiv Connect portfolio within 1-2 minutes. See [Withdrawing Voluntary Carbon \(VCM\) from CBL](#) for details on withdrawing VCM units.
- Gold Standard buyers, product is automatically withdrawn from the Market upon execution and a message is transmitted to the registry. Gold Standard Admin will facilitate transfer of product in the registry as soon as reasonably possible to the buyer. Gold Standard operates during Central European hours.

CORCs

- The trading day for CORCs ends at 23:59:59 UTC and new trading day starts with the date roll over at 00:00:00 UTC. This is relevant for the once-a-day settlement transfer process.
- If Participant ends the trading day as a net seller, CBL Market Operations facilitates transfer of units to the buying Participant's CBL Market Registry Account. Settlement transfers begin (T+1) at 08:00 ET Monday-Friday. *Note: the product and cash move at time of transaction on the CBL Platform.

SIP

- SIP buyers retain deposits on CBL
- It is recommended buyer prioritize these holdings in Xpansiv Connect in the event they plan to list them; they are otherwise last in the delivery priority order.
- Participant can withdraw SIP holdings from CBL within Xpansiv Connect by referring to their SIP Deposit inventory and initiating a withdrawal of product; once selected, the product is returned to the Xpansiv Connect portfolio within 1-2 minutes. See [Withdrawing SIP Deposits from CBL](#) for details on withdrawing SIP units.

SDGEO

- SDGEO trading day ends at 23:59:59 UTC and new trading day starts with the date roll over at 00:00:00 UTC. This is relevant for the once-a-day settlement transfer process.
- If Participant ends the trading day as a net seller, CBL Market Operations facilitates transfer of units to the buying Participant's SD-GEO Registry Account. Settlement transfers begin (T+1) at 08:00 ET Monday-Friday. *Note: the product and cash move at time of transaction on the CBL Platform.

US RECs

- As a buyer, buyers retain deposits on CBL.
- Participant can withdraw REC holdings from CBL within Xpansiv Connect by referring to Compliance Deposit inventory and initiating a withdrawal of product; once selected, the product is returned to the Xpansiv Connect portfolio within 1-2 minutes. See [Withdrawing US RECs from CBL](#) for details on withdrawing RECs.

RGGI and CAMD

- Purchased holdings remain on the Market available in buying Participant's inventory.
- If Participant wishes to withdraw holdings, email CBL [Market Operations](#) @ operations@cblmarkets.com. The individual requesting withdrawal must be listed on the CBL Authorized Persons form with product access.
- CBL Market Operations enters holdings withdrawal on CBL Market Platform and initiates transfer in the registry to the Participant's primary account

CITSS and LRT-CBTS

- Participant may request withdrawal of purchased or unsold holdings by emailing CBL [Market Operations](#) @ operations@cblmarkets.com. The individual requesting withdrawal must be listed on the CBL Authorized Persons form with product access.
- CBL Market Operations enters holdings withdrawal on CBL Market Platform and initiates transfer in the registry back to the Participant's primary account.
- Unless otherwise requested sooner, CBL Market Operations will automatically return all units to Participants at week's end.

ANREU ACCU

- CBL Market Operations team will facilitate settlement transfers:
 - **Settlement Window #1:** 14:00 to 15:00 AEPT the same business day as Market Open – all trades that occur on the market between 10:00 AEPT (Market Open) and 13:59:59 AEPT will be physically settled during this settlement window. Product and Cash withdrawal requests associated with trades that have occurred before this window will be processed.
 - **Settlement Window #2:** 09:00 to 10:00 AEPT the following business day – all trades that occur on the market between 14:00 to 17:00 AEPT the business day prior will be physically settled during this settlement window before market open of the next trading day. Product and Cash withdraw requests associated with trades that have occurred before this window will be processed.
 - **ACCU Prioritization:** If a participant would like to prioritize the ACCUs they want delivered during a settlement window, the participant must submit an ACCU Prioritization spreadsheet within 10-minutes of the start of the settlement window for the prioritization to occur. An ACCU Prioritization spreadsheet can be requested from operations@cblmarkets.com
If an ACCU Prioritization spreadsheet is not received, the CBL Markets Operations Team will use the following [Delivery Methodology](#) – in order of priority
 1. Vintage > Oldest First

2. Quantity > Largest Size First: largest batch quantities will be first out

Settlement of Funds

A CBL User with cash manager authority can initiate **funds withdrawal** directly on CBL Platform. External bank instructions require **verbal confirmation** prior to the first withdrawal being processed. This is performed as part of the on-boarding process, and again if the instructions are changed or updated.

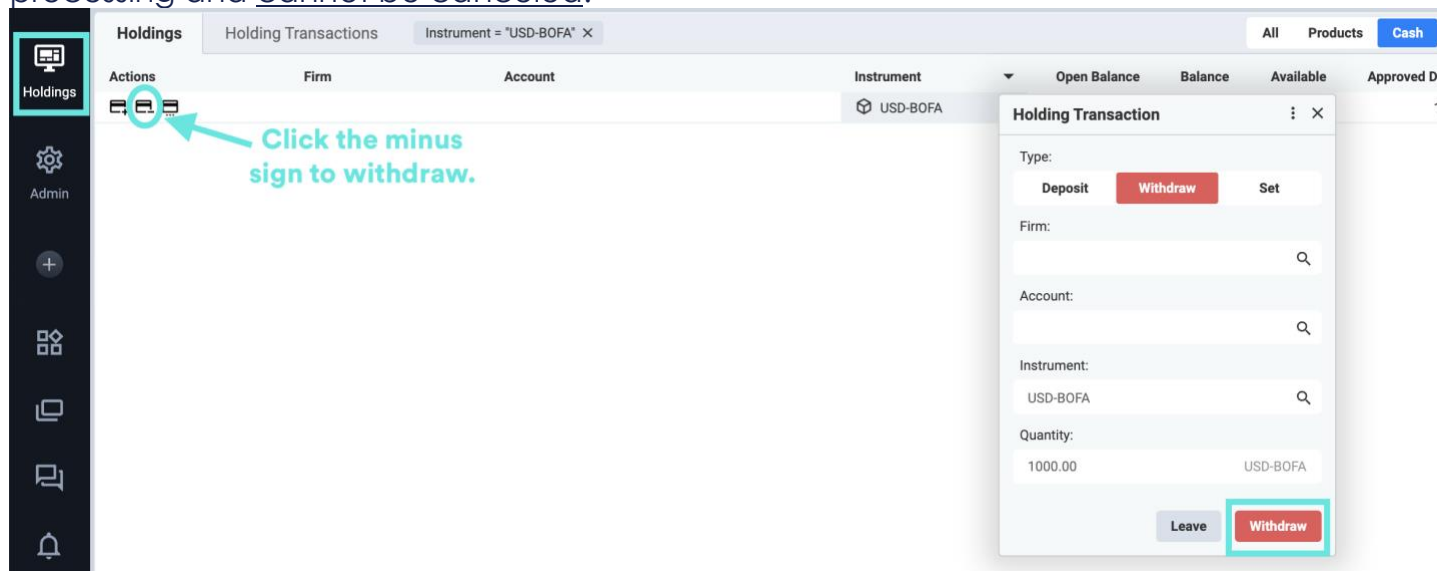

It is recommended that these users first **review** and **verify** the **external bank instructions on CBL Platform** by going to Admin > Bank Accounts. See details for External Account Provider > DEST.

Bank Account Name	Bank Account Number	Routing Number	Routing Number Scheme	Alt Routing Number	Alt Routing Number Scheme	Bank Name	External Account Provider	City
FBO Testfirm1	XXXXXXXX1	111000012	ACH	026009593	Wire	Bank of America N.A.	BOFA	New York
TestFirm 1 Bank Account Name	XXXXXXXX3	00000111111	Wire	1111112222	ACH	Bank Name	DEST	New York

Then go to Holdings > Holdings. Click the minus ('-') sign icon on the left to bring up the Holding Transaction window. Enter the desired dollar amount (USD) in the Quantity field. When ready, click Withdraw.

Withdrawals are **automated**. Once entered on CBL, the Status on the Holding Transactions screen will indicate 'Processing'. It will **immediately** be sent to BofA for processing and cannot be canceled.

Click the minus sign to withdraw.

Funds Withdrawals will be processed to your **nominated external bank account** within 24-48 hours upon request.

If you need additional assistance, please contact **CBL Market Operations** at operations@cblmarkets.com or 833-972-6677, ext 2.
