1.2. Enter a Single order:

- Select **Single** at the top right of the Enter Order window (default option).
- Enter your **Licence** number or press the down arrow on your keyboard to select the license you wish to trade on.
- Enter the **Total Quantity** (in ML) you wish to buy or sell.
- **All or None**: Select “No” to allow your order to **partially match**, or Select “Yes” to ensure a **full match** only.
- Enter your bid/offer **Limit Price** in dollars and cents. The market will adjust the prices for the relevant authority fees.
- Specify the order **Expiry**:
  - “DAY” - order will remain until the end of the current day
  - “GTC” - order will remain live until matched or canceled
  - “GTD” - order will remain until the selected date
  - “GTT” - order will remain until the selected time

*Note: dates and times are relative to the UTC time displayed at the bottom right of the main window.*

- Click **Place Buy/Sell Order**.
- Check the details on the **Confirm Order** window and click **Confirm** to put the order into the market.

Enter Order **Single** Multi X

### 3. How do I amend, cancel or hold/release an order?

3.1 To modify the **Limit Price**, **Quantity** or **Expiry** of an order, click the “**Amend**”  icon next to the order in the **Orders** tab. Once amended and resubmitted, your order is instantly updated in the market.

3.2 To delete an order completely, click the “**Cancel**”  icon.

3.3 You may wish to **hold** or **release**  an order to manage price fluctuations around market sensitive announcements (e.g. allocation announcements, trade restriction openings, environmental water holder sales, etc.).

- Placing an order on “**Hold**” **HLD** will remove it from the market and store it in the “ALL MY ORDERS” orders tab.
- You may “**Release**” **REL** the order back into the market at your convenience.

3.4 You can filter your orders using the buttons at the top of the Orders window.
